To Whom It May Concern:

Mr. Cameron Stephenson is being treated in our clinic and had medically necessary surgery with us on 12/19/2023. It is my medical opinion that Cameron may return to work on 1/8/2024 with restrictions of no lifting, pushing, or pulling more than 5-10 lbs or over-head reaching. These restrictions will be in place until 1/30/2024.

Please feel free to contact us with any questions.
